Re: Permit Alteration
Permit Number: 7711A
Increase in Stack Heights for COOL1 and COOL3
Dallas, Dallas County
Regulated Entity Number: RN100788959
Customer Reference Number: CN602717464
Account Number: DB-0378-S

Dear Mr. Harris:

This is in response to your letter received September 11, 2009, requesting alteration of the conditions of the above-referenced permit. We understand that you wish to increase the Stack Heights for the Line 1 Cooling Section (Emission Point Number [EPN] COOL1) and the Line 3 Cooling Section (EPN COOL3).

As indicated in Title 30 Texas Administrative Code § 116.116(c) [30 TAC § 116.116(c)], and based on our review, Permit Number 7711A is altered. Enclosed are the altered permit conditions to replace those currently attached to your permit. Please attach these to your permit.

No planned maintenance, startup, and shutdown emissions have been reviewed or represented in this application, and none are authorized by this permit.

As of July 1, 2008, all analytical data generated by a mobile or stationary laboratory in support of compliance with air permits must be obtained from a NELAC (National Environmental Laboratory Accreditation Conference) accredited laboratory under the Texas Laboratory Accreditation Program or meet one of several exemptions. Specific information concerning which laboratories must be accredited and which are exempt may be found in 30 TAC §§ 25.4 and 25.6.
